## KEY FEATURES

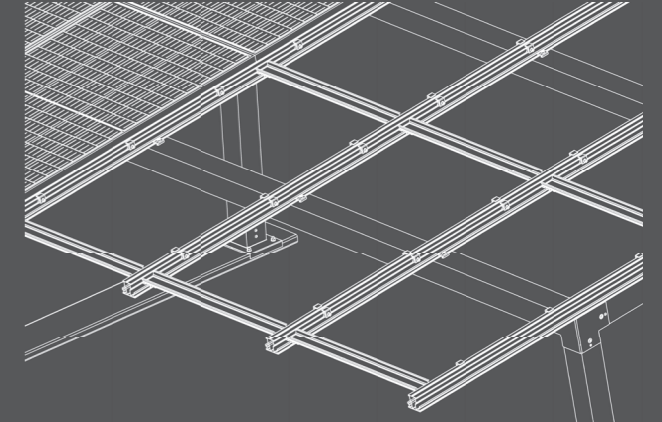

1.The NOVA ZERO Railing System - Carport, is a modularized system available in single or double carspace, with the ability to extend.

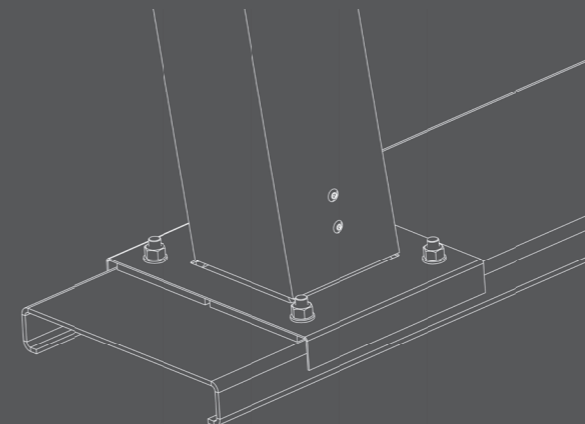

2.The NOVA ZERO Railing System features integrated water drainage channels, ensuring effective water management and preventing pooling or accumulation.

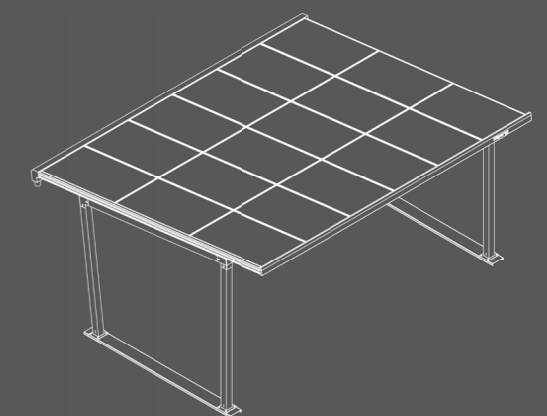

3.The strategically designed purlins feature prethreaded holes, providing convenient railing installation.

4.Our innovative guttering system is specifically engineered to ensure ZERO leakage.

3.With preassembled upright supports, our system simplifies installation onto the foundation, streamlining the process and making it effortless.

4.For streamlined plumbing, our solution includes a rear gutter that facilitates efficient water flow and drainage
